

---

Objective

---

Outline the policy regarding vehicle idling at the University of Michigan (U-M).

Vehicle Use Policy

---

1. Staff members are responsible to operate U-M vehicles according to U-M policies and Federal, State and local laws.

Policy

---

1. The ignition on U-M vehicles should be shut off upon reaching your destination.
2. All U-M vehicles should not be kept running or idling while unattended or parked for any duration over 1 minute.
3. Vehicles left idling increases fuel consumption, increases operating costs, elevates our environmental impact through emissions and escalates the wear on the vehicle engine.
4. Contact Fleet Services at (734) 764-3427 if you have any questions about the idle policy.
